### HOW TO PLAY

Credits purchased are immediately converted to your individual colour of electronic chips, and you're all set to play.

Choose your desired chip value from the three available options.

When the words "Faites vos jeux" (place your bets) appear on the screen, touch the control button at your player position with one hand and touch the numbers on the screen on which you wish to bet with the other. You will need to touch the screen for each chip you wish to wager. When the words "Rien ne va plus" (no more bets) appear on the screen, your wagers for the current spin will no longer be accepted.

### IT'S ALL RIGHT BEFORE YOUR EYES

When the roulette ball stops after each spin, the winning number and all winning bets light up on the game screen. The total of your winning wagers is displayed in the "gain" (winnings) box at your player position.

### FROM YOUR PLAYER POSITION, THE FOLLOWING TOUCH BUTTONS ARE ALSO AVAILABLE:

- "Voisins" (neighbour bets) automatically replays five numbers: the one you touch and the two numbers appearing on each side of that number on the actual wheel. Pressing the button again will deactivate this choice.
- "Montrer les mises" (display bets) displays how much you have wagered per position.
- "Annuler les mises" (remove all bets) cancels all bets you have placed for the current spin.
- "Annuler dernière mise" (remove last bet) cancels the last wager you made on the current spin. By touching the button a second time, you cancel the second-to-last bet, and so forth until you have finished making your changes.
- "Rejouer la mise" (repeat bets) repeats the wagers made on the last spin.
- "Encaisser les crédits" (cash out) pays your current total credits.
- "Pourboire" (tip) enables you to give a gratuity in the amount you choose.
- "Aide" (help) accesses the available help tables.

This text gives a summary of the main rules regarding roulette. For more detailed information, please consult Québec's By-law respecting casino games. In case of a discrepancy between the rules in this text and those in the By-law, the rules in the By-law prevail.

INTERACTIVE ROULETTE

WE'RE ALL PLAY

Roulette now has a new face with touch screen technology: you'll wait less and have more fun! The game is still the same, but Interactive Roulette provides you with a new way to place your wagers.

The available bets and odds are identical to those of English Roulette, but now you can place your bets by using the machine's touch screen located directly in front of your player position.
