TOUCH BET ROULETTE

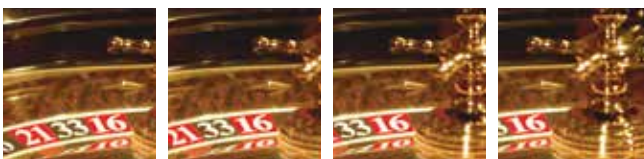

...

WE'RE
**ALL
PLAY**

Traditional roulette may now be played using individual remote stations equipped with touch screens.

HOW TO PLAY

A ball is spun in a roulette wheel which may be viewed live on screen. All you need to do is place your bets using your personal touch screen. Bets and payouts are identical to those in effect at a traditional roulette table.

SELECT LANGUAGE

Select the language of your choice by touching the **FLAG** on the right hand side of the screen.

INSERT MONEY

Insert cash in the bill acceptor. The game accepts Canadian bank notes of the following denominations: \$5, \$10, \$20, \$50 and \$100. Make sure that all the bills inserted were credited by the machine.

PLACE YOUR BETS

Choose 1, 5 or 10 times the betting unit and touch the numbers on which you wish to bet on the screen (straight up, split, corner, etc.). Touch the same betting spot once again to add a second betting unit, and so on.

- . The types of bets are identical to those of a traditional table except the American Roulette split bets **00-2** and **0-2**.
- . Betting spots are identical to those on a traditional table except for sixlines which must be selected on the upper line of column 36.

Touch the **CALL NEIGHBOUR BETS** button to access the **NEIGHBOURS AND FINAL** screen in order to make a series of bets touching a single button.

Bet until "No more bets" is displayed on the screen.

VIEW THE GAME LIVE FOR THE RESULTS

View the action on screen of the ball as it comes to rest on the winning number. A Picture-in-picture image allows you to view the ball's final revolutions in the wheel.

- . At the end of each game, the winning number is lit up and all winning wagers are identified and paid.
- . The total amount won during the game will then be displayed in the **WIN** box.

Touch the button marked with an **i** to display the last winning numbers.
