PLAY

Wheel of fortune is no doubt the easiest table game one can play.

THE OBJECT OF THE GAME

To predict the number on which the spinning wheel will stop.

THE BETS

Using value chips purchased from the dealer, place your bet(s) on the Wheel of Fortune table, respecting the minimum and maximum bets indicated at the table. Betting spots represent either a number, the Joker or the Casino and correspond to one or more sections of equal size on the wheel. Although the dealer may assist you in positioning your bet(s), you are at all times responsible for their final position.

THE GAME

You may place bets until the dealer announces “Rien ne va plus” (No more bets!). The dealer then spins the Wheel of Fortune. The result for a game is the number on which the pointer rests when the wheel comes to a stop.

A bet wins if it corresponds to this number. However, a bet on Joker wins when the pointer comes to rest on the “45 Joker” segment of the wheel, and a bet on Casino wins when the pointer comes to rest on the “45 Casino” segment of the wheel. For a result to be valid, the spinning wheel must not be obstructed in any way and must complete at least 3 revolutions.
