

CASINO PRIVILÈGES CLUB

Members of the Casino Privilèges Club are entitled to earn Privilèges Points when they play the slots.

Simply insert your Casino Privilèges card in the slot machine¹ before you start playing and you will accumulate Privilèges Points that can be exchanged for cash. It's that easy!

EARNING PRIVILÈGES POINTS

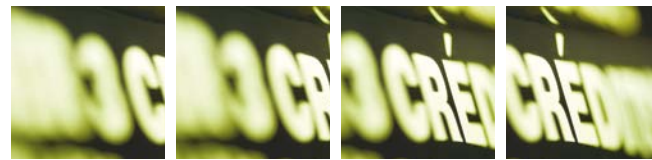

Minimum for cash exchanges: 1,500 Privilèges Points = \$5

DOUBLE THE FUN!

You can also use your Casino Privilèges card at your favourite game to earn Casino Status Points² and reach one of the three Casino Status Levels: Casino Privilèges, Prestige or Prestige Plus—all of which offer a range of benefits in all of our four casinos.

¹ With the exception of certain types of machines.

² Certain conditions apply.

CASHLESS TECHNOLOGY

Cashless technology is now used worldwide. Use your TITO (ticket-in/ticket-out) slip to play and to cash out. Cashless technology has three main advantages that enhance the gaming experience.

SPEED • EFFICIENCY • SIMPLICITY

FAST. Move from one machine to another, without an intermediary, between different types of machines (cylinders, video or poker) or between machines of different denominations (ex: from a 25¢ machine to a \$1 machine). It's fast and practical!

EFFICIENT. Cashless technology greatly reduces waiting times for machines and at the cashier's cage.

SIMPLE. TITO slips mean no more dirty hands from manipulating coins.

RESIDUAL CREDITS

You can play the slot machines using Canadian cash or a TITO slip. The value of the cash or the slip is displayed as a number of credits on the counter. For example: if a \$20 bill is inserted into a machine with a 25¢ denomination, the counter will show 80 credits. If a TITO slip with a balance of \$24.75 is inserted into a machine with a \$1 denomination, the counter will show 24 credits and a new TITO slip worth 75¢ will be issued.

HELP

Press the **CALL ATTENDANT** button for help from an attendant.

CASHING OUT

Press the **CASH** button and the machine will issue a credit slip. Make sure that the number of credits on the slip matches the number of credits displayed.

EXCHANGING CREDIT SLIPS

Three options are available:

1- Insert the credit slip into a self-serve Casino cashier.³ The cashier will reimburse you in cash.

2- Give your credit slip to a cashier at one of the Casino's cashier's cages.

3- Reinsert your credit slip into another machine and continue playing.

³ Available to all players, even to those who are not members of Casino Privilèges. 10-541.37-200912

SLOT MACHINES

The first **slot machine** was invented in California at the end of the 19th century. Over the years, it has evolved continuously from the classic version with spinning wheels to the modern video version. Today, slot machines are among the most popular casino games.

There are three categories of slot machines in Québec’s casinos: cylinder, video and poker. Each category can be broken up into sub-categories as described further on.

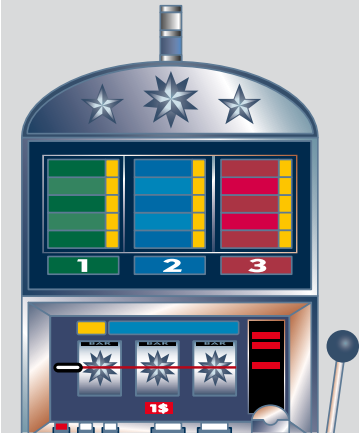

HOW TO CHOOSE A SLOT MACHINE

The first step in choosing a slot machine is to check its denomination – the amount of money equivalent to one credit on the machine. Machines have denominations ranging from 1¢ to \$500, and certain machines even accept several different denominations. Next, read the payout table displayed on the upper part of every slot machine. All winning combinations and paytables are shown on the screen.

Each machine features a help menu for players who want additional information about the particularities of a machine.

CYLINDER SLOT MACHINES

There are three types of cylinder slot machines: Multiplier, Buy a Paytable and Multi-line. Players activate the cylinders on these machines by pushing the “spin” button or by pulling the arm.

Multiplier slot machine

MULTIPLIER: with this type of machine, you can bet from 1 to 5 credits. Winning symbol combinations remain the same no matter how much is wagered. Winnings vary depending on the number of credits wagered.

BUY A PAYTABLE: you choose to play 1, 2 or 3 paytables at 1 credit per paytable. If you choose 3 paytables, all symbols are included in play for a maximum number of winning combinations. If

you choose 1 or 2 paytables, certain symbol combinations are excluded from play.

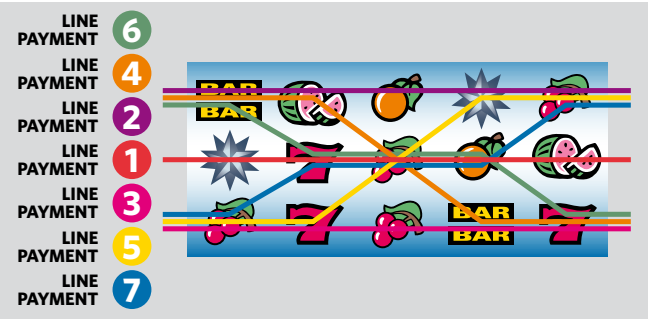

MULTI-LINE: the greater the number of credits wagered, the greater the number of lines on which you can win: 1 credit equals 1 line. By increasing the number of credits wagered and number of lines in play, you multiply your potential winnings.

VIDEO SLOT MACHINES

Three types of video slot machines are available: Bet on a Column, Multi-line and Multi-game, all of which have touch screens for gaming fun at your fingertips!

BET ON A COLUMN: you purchase the number of columns you want to wager on and then enter your credits. To win, the same symbols must appear in each column. The greater the number of columns purchased, the greater the potential payout.

MULTI-LINE: the greater the number of credits wagered, the greater the number of lines on which you can win: 1 credit equals 1 line. By increasing the number of credits wagered and number of lines in play, you multiply your potential winnings.

Video slot machine, multi-line payment

MULTI-GAME: the main screen displays all the games available. You choose your game by touching the screen. The two main games are keno and poker, but other games are available depending on the machine and the casino. Once the game has been chosen, the machine operates the same way as all other types of video slot machines.

POKER SLOT MACHINES

Poker slot machines offer a number of poker variations, with virtual games of 52 or 54 cards. You are free to choose your type of game and may even play more than one hand at a time.

Poker slot machine

If gaming is no longer a pastime...
